The Welland Saloon.

W. Whitney has assumed control of the Welland saloon, which he proposes to run strictly up to the times. He will dispense the best liquors and cigars and fine old Government whiskey, which slides down your throat like oil, tickling your palate meanwhile. Call and see "Handsome Whit."

Benton's Liniment.

Which has been used in Carson for over twenty-five years, has saved many an ache and pain to those who know it. It is really intended for horses but works with the same magical effect on the human. It is a powerful remedy and for rheumatism is the king of the world. Aches knocked out in short order. No horseman should be without a bottle.

"The Pullman Strike."

The above named book and an excellent article in the last Arena, gives a clear view of the great industrial contest against the exactions of Capital. Cagwin & Noteware have both for sale, as also many new books and songs. Also a fine assortment of tissue crepe paper just received.

Notice is hereby given that the Register is open from 10 a. m. to 4 p. m. Sunday and legal holidays excepted, for the registration of legal voters in Carson township, Ormsby County Nevada.

W. A. HAWTHORNE,
Register Agent.

Piano Tuning.

O. A. Hoyt, of Sacramento, will be in Carson October 1st. Leave orders with Cagwin & Noteware.

Proposals Wanted.

Proposals will be received until Monday Oct. 1st, 1894 at 12m., for the following privileges at the track of the Ormsby County District Fair, to be held Oct. 9th to 12th inclusive:

Bar, including lemonade and cigars.
Restaurant.
Candy, fruits and nuts.
Pools.
Wheel of Fortune.
Music, not less than ten pieces.
Publishing official programme.
Bids must be accompanied by a certified check for the full amount, drawn in favor of the Association. Bids should be endorsed "Proposals for Privilege," and addressed to the Secretary of the Association, Carson City, Nevada.

The Board reserves the right to reject any and all bids.

By order of the Board of Directors:
Wm. Hy Doane,
Secretary.

Notice of Dissolution of Co-Partnership.

The Co-Partnership heretofore existing under the name and style of Bell, Edwards & Co. doing business at Carson City Nevada, and Wellington, Nevada, is this day dissolved by mutual consent.

Mr. L. H. Bell having purchased the entire interest in said firm, L. H. Bell assumes the indebtedness due by said firm and is authorized to collect all debts due said firm.

All persons who are indebted to said firm are requested to make payment immediately to L. H. Bell.

DWIGHT EDWARDS,
L. H. BELL.

ALL SORTS.

Joe Ryan came down on the train last night.

A \$50,000 fire visited Mission San Jose yesterday.

There was a big Silver rally on the Comstock last night.

The races this fall will take the place of the county fair.

Young ladies in this city are talking of starting a gymnasium in this city.

It is only about a month to election and a few Republicans are still left in the Mint.

A man supposed to be a resident of Oakland committed suicide in Bakersfield yesterday.

Silver men don't consider it the fair thing to make a bet without naming majorities.

It is high times that the authorities arrested some of the hoodlums who disturb public meetings in this city.

With Morton and Hill opposing gubernatorial candidates in New York, politics ought to be warm in the Empire State this fall.

George Mills is a very pleasant gentleman and as handsome as a picture, but he will not address the Senate this winter. Some other winter George.

The Republicans of Douglas made no nomination for Sheriff and Assessor, they would have shown their good sense by also leaving the other nominations vacant.

The Silver ticket nominated Wednesday at Carson gives the people of that county general satisfaction as it is regarded as a sure winner in November.—Silver State.

Eisleben, the birthplace of Martin Luther, is sinking into the morass upon which it is built. Measures have been taken in recent years to drain the bog without avail, and the inhabitants are seriously talking of abandoning the town.

Miss Flora Finlanson, the Nevada opera singer, was recently locked up in the cooler in New York for being drunk with another actress, and a contemporary remarks that it was "a case of too much stage." The stage is in no way responsible for it, it was simply a case of too much booze.

Stocks opened at a further advance yesterday morning and shaded off slightly at the close. Con. Virginia opened at \$5 1/2, \$5 3/4, \$5 1/2, sold for \$5 1/2 after the board and closed at \$5 1/2. Ophir opened at \$4 20, sold for \$4 10 after the board and closed at \$4 15. Other stocks sold at proportionate figures.

A Philadelphia dispatch says that a man named Casey, formerly a hotel proprietor of Carson City Nevada, has fallen heir to a million dollars, and a title of nobility. No such man was ever heard of in this section but if he wishes to come here and live, he will be well treated by our local aristocracy.

The days and nights are now about equal. The autumnal equinox is at hand; that is to say, the sun, if it could leave a golden band, would gird the earth at the equator. The days will now grow shorter and shorter until December 21st, when the winter solstice occurs which is the shortest day in the year.

Presbyterian Church Sunday Sept. 30th. Service at 11 a. m. and 7 p. m.

Morning subject: "Jewels."
Evening subject: "The Model Home."

Everyone welcome.
FRANCIS L. NAST,
Pastor.

We see by the French papers that horse meat is selling for 20 cents per pound in Paris, with an unlimited demand. Why don't some of our people who have droves of mustangs communicate with the French butchers and open an outside market for this class of stock. Or, can't horse-flesh be made a popular article of urban diet at home?

Had a Good Effect.

A few weeks ago the APPEAL contained a little pleasantry at the expense of Fred Dangberg and Herman Springmeyer. The writer was informed by several persons, that both of these men would lick the editor on sight. There seems to be a little mistake about this however. The item had the effect of causing these old enemies to be good friends. They take dinner now with each other on Sunday and both have paid their back subscriptions to the APPEAL.

OUR GOLD MINES.

Richer Diggings Than Seen in California.

Nevada is opening up some of the most promising gold fields on the Coast. If Zinn's Pine Nut strike had been made in California there would have been a rush to the new diggings. Some of the Nevada gold fields are worth considering.

Three and a half tons of ore from the Palmico mine, Hawthorne, yielded \$4,050 in gold.

A lot of fifteen tons of ore from the Irish Boy mine, Kennedy district, sent to Selby's smelting works, San Francisco, for reduction, paid \$512 a ton. The vein is from two to four feet wide.

A ledge, a mile and a half from Unionville, Humboldt County, assays from \$140 to \$1,800 a ton in gold. The vein is two feet wide.

In Lincoln County, Scott Allen accidentally found a vein of iron-stained quartz. He did not think much of his find, but an assay showed that the material contained over \$3,000 a ton in gold. This find was made in a section of country some distance south of where Captain De Lamar is operating.

These paragraphs are in regard to only a few districts or sections of the many gold belts. In the Kennedy district—first discovered in July, 1891—are the Cricket, Imperial and many other mines as rich as these ones mentioned above. Indeed, it is a region full of rich veins of gold-bearing quartz, and finds are still being made almost every week. No place in Nevada is more worthy of the attention of the capitalist or prospector.

A railroad down through Nevada, one that would connect Salt Lake City with Los Angeles, would open many good gold camps. The whole route would be through a region full of mines of the precious metals. Down toward Death valley lies Montgomery district, a good gold camp, but one that is almost out of the world as regards transportation.

Also down near Death valley, in Tule canyon, some rich gold mines should be opened. On this canyon rich dry diggings were discovered some fifteen years ago. In 1880 a few men were at work there. They had no machines for dry washing, and did not even winnow the dirt by tossing it up in the wind, Mexican fashion. They simply dug over the ground with picks, collecting such pieces of gold as they happened to see. In this way they made good wages in ground from two to four feet deep. Working in this rude way they found one nugget that weighed five pounds, and very many worth from \$5 to \$75. Pieces of gold worth about fifty cents were about the smallest saved working in this way, "by eye." With water or even dry washing machines, such ground should have paid immensely.

As all the placers in the Great Basin region are of local origin, Tule canyon must cut one or more large and rich veins of gold-bearing quartz. At present we hear but little about these diggings, though there is always more or less gold coming from them, which is said to be ground out in arrastras by some of the ranchers living in the vicinity.

In the early days an impression prevailed among our miners and prospectors—mostly from California—that the gold veins on this side of the mountains would not prove permanent. They said it was merely a surface production and would not hold out in depth. This soon came to be accepted as an established fact; therefore little attention was given to veins that were purely gold-bearing by those who went forth on prospecting raids. Now the truth is that our gold mines are the most permanent in the country. The first gold mines opened and worked were in Devil's Gate district, at Silver City. These have been worked right along unceasingly for over thirty years, and today are paying their owners as well as at first. Wherever paying gold mines have been found in Nevada they are still paying, as in the beginning, and this is more than can be said of many of the silver mines.

Foster's Forecast.

St. Joseph, Mo., Sep. 28.—My last bulletin gave forecasts of the storm wave to cross the continent from September 26th to the 29th and 30th to October 5th, and the next will reach the Pacific Coast about October 6th, cross the Western mountains by the close of the 7th, the great central valleys from the 8th to the 10th and the Eastern states about the 11th.

Warm waves will cross the western mountains about October 6th, the great central valleys about the 8th and the Eastern states about the 10th.

Cool waves will cross the Western mountains about the 5th, the great central valleys about the 11th and the Eastern states about October 13th.

New moon occurs September 29th. Full moon October 14th, and Mars in the early, eastern, evening skies outshines all his neighbors and will aid in giving us a warm, dry October in the northern states. He will not again visit our Autumn skies until 1911.

About the date of this bulletin very severe weather and earthquakes will occur in many parts of the world.

Gracie Married.

No one in San Francisco is more popular with theater goers than Gracie Plaisted, who has just been married to Frank Fowler, a young rancher of Livermore. It must have been an affair of the heart, for the groom is only a man of very moderate means.

Miss Plaisted is a great favorite in San Francisco, on the stage and off. She has a kind word for everybody and a pleasant smile. The supes of the Tivoli call her Gracie and so do the newsboys and bootblacks.

The writer once saw her introduced to a foreign commissioner at the Midwinter Fair. He was presented as "Don Fernando de Zolli Madosurgo Gallici."

"What did you say your name was?" said Gracie with a bewildered expression. He repeated it very slowly and with an air of great self-importance.

"Will you let me call you Charlie for short?" was the singer's reply.

"And your name madam, I did not quite catch."

"Just Gracie."

Tested the Law.

On September 10th the Sparks & Harrell cattle company of Elko county, Nevada, brought suit against James Bews for going on their lands with a band of sheep, and eating their feed. The suit resulted in Mr. Bews paying \$230 and counsel fees to the company's attorney, J. W. Dorsey of Elko, who brought the suit. Mr. Bews also agreed to keep off the lands of the Sparks company and in other ways the suit promises to be very important. Stockmen in Nevada have paid very little attention heretofore to land rights or ownership. Their stock has run almost indiscriminately upon all land unfenced, but there is likely to be a great change in this respect in the near future, and it will make land worth more an dvice home stockmen a great advantage over the wandering bands that have heretofore absorbed more than their share of the feed.

The Reno Races.

The races open on Tuesday next at Reno, and a good many Carson horses have gone down to compete for the purses. It will be a busy week in Reno, and the week after the Carson races will come off at the Fair track which is now in fine condition.
